PROJECTS

AVEX WEBSITE | COMPANY WEBSITE

Techstack : ReactJS , TailwindCSS , CSS

- Website for a blockchain based startup which displays the company portfolio
- Used vercel for deployment and various frontend based technologies
- Self Designed and built
- Link: <https://avex-website-updated-39gl-srj8wl4ze-manikantan-s.vercel.app/>

TO DO LIST | REAL-TIME TASK MANAGEMENT

Techstack : VanilaJS , HTML , CSS

- Visually changing background that adapts to the time of day and a real-time clock display for heightened awareness
- Personalized experience by entering your name, and effortlessly manage tasks with features like adding, editing, and removing items.
- Distinguish and organize tasks with visually marked completed items, crossed off and moved to a separate section
- Link: <https://gdsc-srm-cand-1461-mxyypon8i-manikantan-s.vercel.app>

QUOTE-GENERATOR | Generates Quotes and Tweets

Techstack : NextJS, TailwindCSS

- Used NextJS for the basic frontend
- The Quotes generated can be tweeted and are powered by a robust API
- Link: <https://next-js-gen-y-task.vercel.app>

CRED CLONE | CLONE OF CRED WEBSITE

Techstack : HTML, CSS, Vanilla JS

- Website of CRED Company cloned efficiently
- Deployed on AWS Amplify and Vercel
- Link : <https://gen-y-cred-clone.vercel.app>
